BINDS CROSBY OVER TO COURT

Mayor Black Finds in Preliminary Hearing and Sends Former Trustee to Higher Court.

OTHER CASE WILL BE HEARD

State vs. Greely Ferguson on Blind Tiger Charge is Postponed Until Next Tuesday.

The mayor's court took on renewed activity this afternoon, when two cases came up for consideration. Mayor B. A. Black bound Ed Crosby, the former trustee who is charged on two different counts for forging the names of three men and fraudulently obtaining \$252, over to the circuit court on the evidence which was introduced by the State in the first case, in which it is alleged that Crosby forged the name of Thomas Hughes and received \$110. The other case will come up later at a time to be arranged between the State's attorney and the attorneys for the defendant. The case of Greely Ferguson, who was arrested Tuesday evening on a charge of operating a blind tiger, was continued until next Tuesday afternoon at one-thirty o'clock upon a motion of Will C. McColgin, who is the attorney for the defendant.

A good sized crowd gathered in the mayor's court shortly after dinner today to hear the evidence in the Ferguson trial, but was disappointed. The mayor had announced that he would return a verdict in the Crosby case this morning at ten o'clock, but he did not fulfill his promise as he had not at that time made up his mind in regard to the matter. The mayor arrived soon after two o'clock this afternoon and first returned his decision in the former trustee's case. "I have studied this case carefully," said Mr. Black after taking his seat in the court, "and have looked at the evidence from all angles. I have considered the evidence introduced by the defense and also the evidence brought in by the State. I feel that the only way in which I can justly dispose of the case is to bind Mr. Crosby over to the Rush circuit court."

The mayor said that the bond would remain the same, one thousand dollars in the first case, on which the former trustee was sent to the circuit court for a hearing. He told the defendant's attorneys that he would fix the transcript and the new bond in a short time so that the change to the higher court could be made as soon as possible. George Young, attorney for the defendant, took exceptions to the mayor's decision and said that his client was bound over to the grand jury instead of the Rush circuit court. The mayor included the grand jury, so he said, when he said the Rush circuit court.

The other case, in which it is charged that Ed Crosby forged the names of W. F. Jackman and Theodore Jarvis and obtained \$142, was set for a preliminary hearing before the mayor at three o'clock this afternoon, but due to a misunderstanding between the State and the defendant's attorneys it was not tried at that time as the defense was not prepared. Mr. Young said that it was his understanding that the preliminary hearing would be waived in the second case and that it would go to the Rush circuit court with the other case or that it would be postponed until a decision was to be had in the first case in the higher court. Mayor Black said that he had set the case for trial at three o'clock this afternoon, but that if the defense was not ready for a hearing at that time, that it could be arranged for a later date, which will be fixed as soon as

possible. He asked that Mr. Young confer with Reuben Conner, the other attorney for the defense, and fix a time for the hearing.

Will C. McColgin appeared for Greely Ferguson, who is out under a two hundred dollar bond, after having been arrested on a blind tiger charge, and asked that his client's trial be continued until a later date. The attorney said that he was not prepared for trial yet and that he would like a longer time. Wallace Morgan, deputy prosecutor said that he would like to dispose of the case as soon as possible but that he would be willing to allow a continuance. The trial was set for Tuesday afternoon at one-thirty o'clock.

AWARD PRIZES IN WHEAT CONTEST

One Year's Subscription to Daily Republican Free of Charge Goes to John Frazier.

FOR BEST AVERAGE IN COUNTY

For the best yield of wheat in the county this year, all things being considered, John Frazier of the Flat-rock neighborhood has been awarded the first prize in the Daily Republican contest which was announced at the beginning of the wheat threshing season. The first prize is a subscription to the Daily Republican for one year, free of charge. The second prize was awarded to Rex Innis of Milroy, and is a six months' subscription to the Daily Republican, free of charge. There were several wheat fields in the county which yielded greater than the ones who won the prizes, but in every case the other fields on the farm pulled the general average down. The average for the whole crop on the farm was taken in making the awards. There were a number of farmers who submitted their yields and most of them were near thirty bushels.

Mr. Frazier led the bunch with a yield, all of his crop of about fifty acres being taken as a whole, of thirty-five bushels to the acre. He had one field which brought up the average considerably. Rex Innis of Milroy was a near second with a general average of thirty bushels to the acre. He had one field which made forty-three bushels to the acre and which brought the general average up considerably.

IS SEEKING HIGH OFFICE

Shelbyville Man Would be K. of P. Grand Chancellor.

When the Grand Lodge, Knights of Pythias, meets in Indianapolis in October, the name of E. H. Chadwick of Shelbyville will be presented as a candidate for the office of grand chancellor of the order. Owing to the death of Will Converse, who had been elected to serve as grand vice-chancellor for the present year, a great deal of interest has been aroused in the election of a chancellor, as the position is an open one to any one who cares to enter.

SENDS SMALL BOY TO REFORMATORY APPOINTS MEN TO RAISE MONEY

Christopher L. Jones, 14-Year-Old Inmate of S. & S. O. Home, Sentenced to Plainfield.

HAD BECOME UNMANAGEABLE

Judge Sparks Hears Argument in Pea Divorce Proceedings and Leaves For Shelbyville.

The Rush circuit court was a busy place this morning until ten o'clock, when Judge Will Sparks left to go to Shelbyville to attend a big Knights of Pythias celebration there. The first case to be heard was that of Christopher L. Jones, a fourteen-year-old boy. Young Jones was an inmate of the Sailors' and Soldiers' Orphans' Home, near Knightstown, who had become hard to manage.

The judge heard the case and sent the boy to Plainfield to the reformatory. It was charged that the boy was into all kinds of mischief and was absolutely unmanageable. The authorities there said that he committed all sorts of petty thefts and was continually in trouble. They finally gave up in their attempt to make him better and turned him over to the law for it to take its course. Sheriff Clata Bebout took the boy to Plainfield this afternoon.

After the boy's case was disposed of, the judge heard the argument in the divorce suit of Omer Pea against his wife, Mrs. Fanny Pea. The charges in the complaint are very numerous which were rehearsed when the suit was filed in court. The judge heard the evidence introduced, the argument and took the matter under advisement.

Shortly after ten o'clock Judge Sparks left over the Pennsylvania for Shelbyville to attend a Knights of Pythias celebration which is in progress there today. The Shelbyville Knights have been planning for the event for several weeks and expected it to be successful.

FINALLY DIES OF CANCER OF STOMACH

Mrs. John Richey, 50 Years Old, Succumbs to Dread Disease at Her Home in Milroy.

HUSBAND IS ONLY SURVIVOR

Mrs. John Richey, fifty years old, died at her home in Milroy at one o'clock this morning of cancer of the stomach after a long and lingering illness. She had been suffering with the disease for about six months and was unable to get any relief from it. Her demise had been expected for several days past. A postmortem will be held over the body this evening and will be conducted by Drs. W. S. Coleman, Frank Green and J. G. Lewis. Mrs. Richey is survived by her husband. The funeral services will be held tomorrow morning at ten o'clock and the burial will take place at Richland.

Miss Jean Bishop will entertain the Shakespear club at her home at the residence of Mrs. Anna B. Cox in North Morgan street at 7:30 o'clock this evening.

President Cox Names Committee to Get Subscription to Pay For Decorative Sidewalk Lights.

PLANS MORE WITH RAPIDITY

Water and Light Committee Report Improvement Will Cost Merchants \$2,000—Not Very Accurate.

That the fixtures, including the iron poles, protruding arms and lamps of the decorative sidewalk lights, which the merchants of Rushville are considering for lighting the down-town streets will cost approximately two thousand dollars, was the estimate placed on the improvement by the water and light committee of the city council, which met with the members of the Rushville Retail Merchants' Association in the court house last night. That estimate, however, does not include the cost of installation, which the merchants ask that the city stand.

The water and light committee did not have the power from the city council to act and nothing definite could be done last evening. They were not prepared to say whether the city would install the lights and furnish the electricity for lighting them free of charge if the merchants fulfilled their part of the agreement. President Ben L. Cox appointed Tony Schrichte, Bert Mullin and Will Bliss as a committee to raise the two thousand dollars or approximately that amount to pay for the new lights.

The water and light committee, with the assistance of A. T. Mahin, superintendent of the water and light plant, have made its investigation of the cost of the proposed improvement since Tuesday night, when the proposition was first put up to the city council. Since the cost has been rather hastily prepared, it is not certain that the estimate is exactly accurate. Although the light committee felt that they had made the estimate as low as possible, several members of the Association felt, judging from some investigation which they had made, that the estimated cost of the fixtures was rather high. The merchants, however, were given the privilege of purchasing the material wherever they see fit and wherever they think that they can get the fixtures at the least cost.

The committee started out this morning to canvass the merchants in the four squares where the lights will be placed, ten lights to a square. It was estimated last night that at least seventy-five merchants would be affected by the lights by reason of the fact that their business is located within the boundaries which have been laid down for the decorative sidewalk lights. The committee expected to make the canvas as soon as possible and close the matter up at once, so that the lights can be installed while the streets are torn up for the paving, when they can be put in at a greatly reduced cost. The cost of digging trenches for laying the underground work which includes the conduits in which the electric wires are enclosed, will be done away with as the streets will be torn up.

The water and light committee did not make known what the improvement would cost the city if they agreed to install the lights. If the lights are put in, it is the intention of the city to do away with the are lights on the corner where the sidewalk lights will furnish the light. They said last night that it would take about fifty-two per cent more electricity to run the forty sidewalk lights than it was now taking to operate the are lights which would be

taken out if the other plan is taken up.

Mr. Mahin told the merchants last night that the fixtures for which the water and light committee had obtained figures, were the very best material which is to be had. He said that the poles are of the best quality of iron with five arms on the top, where five large electric lights could be placed. The proposed fixtures are very similar to the ones which have only recently been installed in Indianapolis and are of the same high quality. It is planned to use the Tungsten electric lights on the poles, in case arrangement is made for the improvement.

The enthusiasm evinced last night over the proposed installation of the artistic lights, which would greatly improve the down-town district of the city and give it a metropolitan air, was very great. As soon as the committee was appointed last night, business men all over the room began calling out that the committee could put their names down as willing to stand an assessment for the improvement.

JONES REPEATS IN FT. WAYNE RACES

Local Reinsman Wins 2:07 Pace With Gordon Prince Jr., After Five Hard Miles.

TAKES FIRST IN TWO HEATS

Harrie Jones was able yesterday to repeat the trick of the day before at the Ft. Wayne races by winning all of the races in which he had an entry. Fortunately, for the other horsemen, he had only one horse in the events yesterday and that horse Gordon Prince Jr., won the 2:07 pace, the hardest fought race on the day's program after five heats had been raced. The local horseman won the third and fourth heats, finishing third in the first, fourth in the second and second in the last. The local reinsman has won every race in which he has started there this week. The best time of the race was 2:05 1/4, made in the first heat, while the two miles in which Gordon Prince Jr. came under the wire first, were both in 2:09 1/4.

ARE ATTENDING FRIEND'S MEETING

Number of People From Carthage and Vicinity in Richmond For Annual Session.

MUCH INTEREST IS TAKEN

A number of Rush county people are in attendance at the Indiana Yearly Meeting of the Friends which is now in session at Richmond. Most of the local people who are enjoying the session are from Carthage and vicinity as it is there that the people of that belief are strongest. There is a Friends church in Carthage which enjoys a large congregation. Herschel Folger, principal of the Southland college, gave a short address yesterday morning, in which he made a strong plea for the financial support of the school. Among the people from Carthage and vicinity who are attending the sessions are: Mr. and Mrs. W. P. Henley, Rev. and Mrs. Charles S. Winslow, Mrs. Eunice S. Phelps, Mrs. John W. Johnson, Mr. and Mrs. Wm. H. Binford, Mr. and Mrs. Jesse Henley, Miss Mattie Bentley, Miss Pearl Coffin, Mr. and Mrs. Irvin Hill, Mr. and Mrs. J. C. Cox, Mrs. Owen S. Hill and Mrs. Allen W. Newsom.

ORGANIZE NEW TRUST COMPANY

Farmers Trust Company Has Been Formed and Articles of Incorporation Have Been Filed.

CAPITAL STOCK OF \$25,000

Will Supplant the Farmers' Banking Company, Which Will go Out With Coming of New Organization.

The Farmers' Trust Company, with a capital stock of twenty-five thousand dollars, has been formed for the purpose of taking over the business of the Farmers' Banking company. Articles of incorporation were filed with the secretary of State in Indianapolis yesterday afternoon by A. B. Irvin, who is one of the stockholders and who is at present the president of the Farmers' Banking Company. With the coming of the Farmers' Trust company, the Farmers' Banking company will disappear. The business will not be started yet as only the preliminary work has been done. On the day that the new trust company takes a place in Rushville's business world, then the present bank at the corner of Third and Main streets will be no longer in existence.

As is stated in the articles of incorporation, the capital stock at present is twenty-five thousand dollars. It was stated today by one of the directors of the new company that the stock would be further increased to fifty and possibly to seventy-five thousand dollars before the business is started. The increase in capital will be offered to the public, if they want it. The stock in the company will be offered for sale and if it is taken up the capital will be increased accordingly.

The permanent organization of the trust company has not yet been effected, except that the directors have been selected. The directors will probably meet tonight, when the officers of the new organization will be elected. It is hoped that the meeting can be held tonight so that part of the work can be completed as soon as possible.

The Farmers' Banking company, which will pass out of existence as soon as the Farmers' Trust company enters the local financial field, has been doing business in this city nineteen years. The nineteenth year of its life passed the latter part of last month. The bank has been very successful and has paid almost a ten per cent dividend during that period of years. In the same period of time, the nineteen years, which it has had life, the bank has never lost on bad paper with only one exception and then that was only for the sum of \$52.50.

The stockholders of the new trust company are: A. P. Walker, A. P. Wagouer, Dr. D. H. Dean, Mary Dean, Raymond C. Hargrove, William E. Wallace, Arthur B. Irvin, James Wikoff, Lee Pyle, Harry A. Kramer, Bert Mullin and T. A. Craig. The directors are Arthur B. Irvin, Dr. D. H. Dean, Raymond C. Hargrove, William E. Wallace, Lee Pyle and T. A. Craig.

GOES TO WORK AT ONCE.

Albert Freehart arrived last night from a two year's stay in the west and went to work today at noon as manager of the shoe department of Bliss & Cowing store. The vacancy was caused by the resignation of Herbert C. Flint to take a position in the Rush County National bank, made vacant by the resignation of Jesse Pugh who will go into Lyceum work.

Lesson XIII.—Third Quarter, For
Sept. 25, 1910.

THE INTERNATIONAL SERIES.

Text of the Lesson, Gal. v, 15-26.
Memory Verses, 22, 23—Golden Text,
Gal. v, 25—Commentary Prepared by
Rev. D. M. Stearns.

What is the use of all our Bible study if it does not assure to us at least three things—salvation and the assurance of it, a daily life to glorify God, a consuming desire to give the gospel to all that Jesus may come again and set up His kingdom. If we take the beginning and end of this epistle we learn that the Lord Jesus Christ gave Himself for our sins that He might deliver us from this present evil world; that in the power of His cross, we being crucified to the world and the world to us, we might live as new creatures (1, 4; vi, 14, 15).

The epistle then covers specially the second of the three things just mentioned, the daily life to God's glory (1, 24). It must be the Son of God revealed in us, not I, but Christ living in me, and never weary in well doing (1, 10; ii, 20; vi, 9). This life will not be manifest unless we are clear upon the first topic above mentioned, the assurance of our salvation, wholly upon the ground of Christ's having been made a curse for us and that we by faith in Him are considered as having been crucified with Him and thus redeemed from the curse of the law.

In Romans we learn that we have no righteousness, in I Corinthians that we have no wisdom and in II Corinthians that we have no strength, but that in Christ and in Him alone we have all three, righteousness, wisdom and strength, and all wholly of grace, without any desert on our part or by any works of ours whatever. Now, these Galatians were being taught by false teachers that grace was not sufficient, but that there must be a certain keeping of the law. And Paul tells them that this is not the gospel which he preached to them, but another gospel, a perversion of the gospel of Christ, and that those who give heed to it are fallen from grace; not lost, but losing the joy of that salvation which is wholly of grace (1, 6-9; v, 4).

In Christ not only is there deliverance from the curse of the law, but a freedom in His service which is impossible to those who are working for salvation instead of working because they have salvation as the free gift of God. Oh, how great is the love of Him who gave Himself for our sins! We should meditate upon it and upon Him

until we are consumed by it and by it constrained to live wholly for Him. Who shall accomplish this in us? Even the Spirit who is mentioned in the few verses of our lesson seven times. The disciples under the teaching of Christ for two or three years never became what He intended they should be until at Pentecost they were filled with the Spirit. Then we see such a change that even their enemies were compelled to acknowledge that they had been with Jesus. Notice, then, in our lesson that we are to walk in the Spirit, be led of the Spirit and live in the Spirit (16, 18, 25) and manifest the fruit of the Spirit, which is love, joy, peace, long suffering, gentleness, goodness, faith, meekness, temperance. Each of the eight may be said to be a manifestation of the first, for love covers all, love is the fulfilling of the law (verse 14; Rom. xiii, 10). Some one has said that joy is love exulting, peace is love in repose, and so with all the others, each being some manifestation of love. God is love, and love is kind (I John iv, 8, 16; I Cor. xiii, 13). If love always ruled us, how manifest the life of Jesus would be and how greatly God would be glorified in us! When we remember that the Spirit who dwelleth in us as the children of God yearneth for us even unto jealous envy (Jas. iv, 5, R. V., margin), desireth us far more than we desire Him, what can be the hindrance to the manifestation of this love except the power of the flesh described in our lesson, which remains in every believer and is so directly opposite to all that is of the Spirit? While the work or fruit of the Spirit is summed up in nine all inclusive words, note the seventeen words which describe the works of the flesh, with the concluding expression "and such like," as if they were too numerous to mention.

In I Cor. vi, 9, 10, there are ten forms of flesh manifestation mentioned with the same conclusion as here, "Shall not inherit the kingdom of God," but with the comforting assurance that even such had been washed, sanctified, justified, in the name of the Lord Jesus and by the Spirit of God. If the devil can work such beastly works in a human being, how much more can the Spirit of God work His beautiful works if He is allowed to do so. Hear Paul's cry in Rom. vii, 21: "O wretched

man that I am! Who shall deliver me from the body of this death?" or as in the margin, "this body of death." But hear his exultant cry in the next verse, "I thank God, through Jesus Christ our Lord." Then in Rom. vi see how he dwells upon our being crucified with Christ, buried with Him, risen with Him and that now we are to reckon ourselves dead indeed unto sin, but alive unto God, through Jesus Christ our Lord, yielding ourselves unto God as those who are alive from the dead. In the freedom from condemnation and assurance of no separation of Rom. viii we may let the Spirit of Him who raised up Jesus from the dead dwell in us and manifest the life of Jesus in these mortal bodies.

CHRISTIAN ENDEAVOR.

Prayer Meeting Topic For the Week
Beginning Sept. 25, 1910.

Topic.—My denomination at work for my country.—Ps. lxxxix, 1-18. Edited by Rev. Sherman H. Doyle, D. D.

There is little doubt that every one of the great Christian denominations is doing something for our country or working along some lines of home missionary work. The probability also is that the majority of them are doing the same kind of work. One great evil in the great west at least has resulted from the haphazard and unsystematic manner in which the mission work was begun. There was no co-operation among the denominations, and the result was that in small towns varying from 1,000 up in population contained from six to eight or ten churches, all of them having only a name to live. If some arrangements had been made by which the country had been divided there would have been one or two strong Christian churches in each one of these places, and not a large number, almost on the point of starvation, and the ministers' lives worn out by having four or five churches under their care and preaching in each one once or twice in four or five weeks. Too late the great mistake has been seen, but it is hard to change present church arrangements, and the struggle goes on by pastors and churches for a mere existence. This is the saddest feature of our denominational work especially in the western part of our country.

The Christian denominations of our land will never be organically united. Such a hope is as impossible as the realization of a future Utopia on earth. But experience has taught the church that it must unite in co-operation and fellowship, and especially in the missionary cause, if it is to be done in a sensible, businesslike and economical way. Such union is becoming closer and closer every day. It is manifested especially in home mission fields. In our newer fields—Alaska, Cuba and Porto Rico, with the exception of the large cities, where all may go—these lands are apportioned to the different

denominations. For instance, the Presbyterian church, because first on the ground, has received as her allotment the southwestern part of Alaska and the upper part of the Yukon valley. So that, instead of there being a number of churches at points like Eagles and Point Barrow, there is in each but one—a Presbyterian. In other portions there are only Methodists or Episcopalians, and by the way, Point Barrow is the farthestmost northern missionary point in the world. The only white people it contains are the faithful missionary, the Rev. Dr. Campbell and his wife. A year or so ago their church and other buildings were burned down. But they still stood "fast as good soldiers of Christ." They usually get mail once a year, but sometimes but once in two years! Such examples of obedience to Christ's great command should spur us with a greatly increased interest in and labor for this cause.

The methods of work used by each denomination should be studied by the societies belonging to it. It will be a most interesting study from the beginning to the present day. The methods of all are preaching, evangelistic work, the distribution of Bibles and tracts and the education of the children, spiritually, morally, mentally and industrially. But we should know our workers, where they are located and the story of our school work. The methods may be the same, but there is great variety in using them.

Tribute to American C. E. Work.

Hon. Charles W. Fairbanks, ex-vice president of the United States, held the attention of a large audience of Endeavorers and friends in the Christian church of Indianapolis, Ind., in an address on "The Progress of the World's Society of Christian Endeavor and the Civilizing Power of Christianity as I saw It on My Trip Around the World." The occasion was a Christian Endeavor rally day, and it was great. Mr. Fairbanks spoke with sympathy and power, and his address sparked with many a gem of truth.

We quote a few sentences: "Wherever I found American missionaries I found them with an American flag in one hand and a Bible in the other. Close up the churches of our country and it will at once begin a retrograde movement. The ministry is the highest calling any man can engage in. I always honor the ministry. I had only a limited conception of the work of missions and what was being done in the foreign fields until I saw with my own eyes and felt in my own heart the great things which are being accomplished there. Among all the nations of the earth America leads in Christian Endeavor work."—W. Wells Stoddard in Christian Endeavor World.

Let Your Light Shine.

Don't hide your light under a bushel. Let it shine. Give wise publicity to your efforts for the young people. Get the pastor and Sunday school superintendent to speak often and heartily of the society and commend it and its work to the young people. It is not enough in these days of counter worldly attractions simply to permit Christian Endeavor to exist. The negative attitude does not meet the situation. Christian Endeavor to do its best work in any church must have the positive, enthusiastic support of the leaders of the church.—William Shaw, General Secretary.

NUT CROP IS VERY SHORT THIS SEASON

There Was an Abundance Last Season, But There Will be Very Few This Year.

THEY COME EVERY OTHER YEAR

The hickory nut and the walnut crop will be very short this year. In fact after the abundant supply last year it comes as unwelcome news to all the small boys as they looked forward to the nutting season as one of the most pleasant times of the year. There is not a small boy but who is proud of his stained hands when the "hunting" season is on. This year there will be but little doing, and the youngsters must save their store of tree climbing and clubbing energy until next season.

In this part of the State a good crop of walnuts or hickory nuts is followed by a bad one. Last year it was possible for one person to gather about twenty bushels of walnuts in a season, and do it in a very few trips, while this year it will take twenty men to get one bushel instead.

Dr. Pierce's Favorite Prescription

Is no "cure-all" humbug, but is made for just one purpose—to cure the weaknesses, painful disorders and irregularities of the womanly organism. It is

THE ONE REMEDY for these ailments, sold by druggists, devised and gotten up by a regularly graduated physician of vast experience in treating woman's peculiar diseases and is carefully adapted to work in harmony with her delicate organization, by an experienced and skilled specialist in her maladies.

THE ONE REMEDY for woman's ailments, sold by druggists, which contains neither alcohol (which to most women is the rankest poison) or other injurious or habit-forming drugs.

THE ONE REMEDY for women, the composition of which is so perfect and good that its makers are not afraid to print its every ingredient, in plain English on its outside bottle-wrapper, and attest the correctness of the same under oath—thus taking its users into their full confidence, and warranting physicians in prescribing it in their worst cases, which they do very largely.

It is foolish as well as dangerous to take medicine the composition of which you know nothing. Therefore, don't let a dishonest druggist prevail on you to accept a *secret nostrum* for this professionally approved medicine of KNOWN COMPOSITION. Every ingredient in its make-up has the strongest indorsement of the leading medical men of all the several schools of practice. Send postal card request for free Booklet of same.

Every woman may write fully and confidentially to Dr. R. V. Pierce, Buffalo, N. Y., and may be sure that her case will receive careful, conscientious, confidential consideration, and that the best medical advice in the world will be given to her, *absolutely free*.

In addition to this free advice, Dr. Pierce will send a fine French cloth-bound copy of his great 1000-page book, "The Common Sense Medical Adviser," to any woman who will send 31 one-cent stamps to pay the cost of mailing *only*.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They work in harmony with "Favorite Prescription" when needed as a gentle laxative. Sugar-coated, tiny granules, easy to take as candy.

FOLEY KIDNEY PILLS

All candidates on the Republican State ticket are strong men. No exception.

There is every evidence that the Republicans of Indiana are thoroughly awake and interested in the contest this year and as the State committee has been doing good work in the preliminary organization, the party is in shape for a vigorous and winning fight.

Congressman W. O. Barnard is at present visiting the various counties in the Sixth district. This week he is in Shelby county and next week he will be in Decatur county. Mr. Barnard stands for the progressive ideas of the Republican party, and made a record during his first session in congress that the people will be glad to approve. No apologies are necessary.

Amid all the abuse uttered and written on the tariff and Cannonism, the bravery displayed by Uncle Joe Cannon in keeping "a stiff upper lip" and keeping right on unmoved is something that is in a way admirable. He has his convictions as others who oppose his ideas have, and as much as they he has the courage of them.

We talk of billion-dollar congresses, but they have come to stay evidently and one party is equally responsible with the other for their arrival and their upkeep. The congress and the people back of it would find it hard to pick out the appropriation that could be lopped off, yet there are several. The cutting of a little one cost James Tawney of Minnesota his renomination.

It is hardly more than necessary to simply call attention to the exceedingly strong county ticket at the head of the editorial column of the Republican. Comment seems superfluous, yet we do want to impress on our readers the strength of this ticket from the top to the bottom. There is not a man there, but what is entitled to the confidence and votes of the people of Rush county. Study the ticket—look up the men—work for their election.

Cut Your Weeds

(By a Contributor to the Indiana Farmer)

The following article contributed to the Indiana Farmer under the heading "Cut Your Weeds," contains so much that is to the point that we reproduce it in the Republican:

It has been only in the last few years that we have seen the wild carrot or Lace Plant, but it is increasing so rapidly that it bids fair to outstrip the sweet clover and become a much worse pest.

I never saw a weed gain as fast as this wild carrot all along the roads and I have seen fields practically covered with it. I can't see what farmers are thinking about, for in a few more years this weed and the sweet clover will almost take the country if not checked. The sweet clover was allowed to spread along the public highways until now it is everywhere and it will not be long until the wild carrot will be as bad. Can there not be some legislation on this subject? What looks worse than a highway with sweet clover as high as the fence on both sides and the corners of the towns and cities are just as bad.

The seeds of the wild carrot are so small and light that the wind can blow them a good way. So long as it is allowed to seed it is bound to spread.

While on the subject of weeds there is another thing that I wish to write about, and that is weeds around the house, in the front and in the back yard.

Not long ago, while driving through the country, I passed a log house (don't see very many any more), but I hardly looked at the house, for the yard took my attention at once. There were shade trees in front and they were kept trimmed, the lawn was mowed and there were flowers, not too many, but enough to make it look attractive, and I thought whoever lives here is not living just for dollars and cents alone, but believes in enjoying himself a little and giving his family pleasure also.

After going only a mile or two, I saw the top of a large brick house and I thought, now I will see something here, but when I got in front of the house I turned my head in disgust, for this is what I saw: A large sloping lawn that could have been made beautiful with just a little work, but which was loaded with weeds and sprouts from the half decayed cherry and apple trees. These trees had broken limbs hanging down and dead snags here and there. The fence was hardly a fence, the front gate was nailed, though there was no need of a gate, as no one dared try to go up

to the house that way for the weeds. The driveway at the side of the house back to the barn was almost choked up with old broken-down buggies and an old wornout wagon. But the house, was the most forlorn looking sight of any there. Window shades only in the lower windows and no curtains in any, and I wondered what the family thought about it if they were ever so bold as to sit on the front veranda. Now which of the two homes is the most attractive? If I had to live in one of the two under the same conditions, I would very quickly decide in favor of the log cabin.

Some of you will say this is overdrawn, but it is not, it is a fact, and is not only once in a great while but you can see it quite often over the country. Farmers, do you know that the surroundings of your home are the first things that attract the eye of the passerby? Whenever we see a home with a nice lawn, shade trees and flowers we think or say, "What a pretty place" and never think of the house.

I will venture to say that if there are any boys and girls in the brick house they will stay there only long enough to be able to make their own way in the world, when they will leave, and there will be no happy home comings either, after that, for things will never look good to them in this home. They were ashamed to have company, and if I were a young man or woman in the neighborhood I would hesitate about marrying one of them for fear that my father-in-law would soon have no farm and want me to take him to raise.

I know some of you are saying, "I haven't had time to keep my yard mowed or my fences up, or the old wagons, buggies and farming implements out of the front yard, but I know better. Other farmers do and what one can do another can. Don't you know that it adds from \$10 to \$25 value per acre to your farm if it is kept up in proper manner, and if it is worth that much to the other fellow why not to you. I want to say that people passing through the country have a pretty low estimate of a farmer whose lawns, out-buildings and fences are in such a condition. The cost of a lawn mower is not much and a little work early in the spring, when you are not so very busy, will soon get it in such shape that it will take but little work during the summer to keep it in nice condition, and I am sure that the good woman of the house will be glad to put out a few flowers and help make it look more attractive.

draws near, he tells the secret of Hancock's birth to his legitimate son, George Rand, Jr.

The entire Rand family, consisting of son, two daughters and mother, then move to New York. The boy, who inherits his father's acumen, prospers, and after two years in business, enters State politics. Hancock has been installed as his private secretary. On the eve of Rand's nomination for Governor, Hancock demands that he be "taken care of." The campaign manager calls for the secretary's immediate dismissal, which request Rand cannot comply with. The dope fiend, however, becomes so insistent in his demands, backing them up by threats, that Rand tells him he is discharged.

Hancock says that he cannot dismiss him as he is one of the family. Hancock has secretly been making love to Cicely, Rand's younger sister, and it develops that they have been married that morning. Such a relationship, of course, is impossible. Rand attempts to remonstrate with Hancock, but to no avail. Finally, in despair, he calls in Cicely, intending to acquaint her with the horrible state of affairs, but before he can utter a word, Hancock shoots the girl dead.

The play is virile and very different from any other written by Mr. Fitch. It has been referred to as "The Epic of the Century."

The engagement will be for one week, with matinees Wednesday and Saturday.

The Palace theater will show to-night one of the best dramas which they have had to offer for some time in the film, "Human Hearts." It is a Selig and tells a story of great and intense interest. The tale is taken from real life and is said to teach

one of the most impressive morals which has ever been attempted in the moving picture world. A new illustrated song will be sung by Miss Iva Brown.

So great was the demand to see "Thelma," the dramatization of the novel by the same name, written by Marie Corelli, which has been reproduced on a moving picture, at the Vaudet theater last night, that the film will be shown again tonight. In addition to that the management will offer another film, which will make the program twice as long as it usually is. "The Cowboy and the School Marm" is a western comedy and is said to be one of the best fun makers to be seen in the moving picture world. A new illustrated song will be sung.

The Star Grand offers a Selig drama tonight entitled "Led by Little Hands." It is a picture so real and true to life, so pure in motive and up-building in its moral theme, that it ranks high among the season's successes. Earl Robertson will sing a new song. Extra—Sinclair novelty musical act and the Cameraphone singing, talking and dancing pictures. Admission ten cents; children, five cents.

No Frost for Awhile

"There will be no frost for three weeks," is the authoritative assertion of Simon Louk, of Hartford City, who knows more about the weather than anybody else in these parts. And Simon gives reasons that can not well be controverted.

"Did you notice," asks Simon, "that the cucumber burr crop always ripens before frost?"

The cucumber burr, says Simon, is one of the weed pests that never fails to make a crop. Usually at this time of the year the cucumber burr has ripened and gone to seed, but owing to its late start last spring, the weeds are still green and it will be fully three weeks before the seeds are ready to drop.

Reasoning thusly, Simon asserts, and he has the experience of a life time to back him up in it, that there will be no frost before three weeks.

Relatives are the Victims

Selling 15-cent fountain pens for \$1 is the latest graft. The way relatives of dead men fall for the game is fearful.

Some ex-insurance men of Anderson are working the scheme. They keep in touch with all deaths, and when the corpse is safely tucked in earth, write a letter addressed to the one who rests in his coffin, saying they are sending the fountain pen lately ordered, and they hope it will suit, but the fact is that the factory was lately overworked with orders.

In 999 cases out of every 1,000 and in most of the thousands of cases, the grief submerged family will keep the pen and send the \$1, exhibiting it to friends and relatives as the last thing, no doubt, that "dear John" ever bought, and then the ink barrel is uncovered and salt tears are wept into the receptacle meant only for true blue writing fluid.

The fountain pen merchants, it is said, are doing a land office business.

INCUBATOR BABIES

Dr. J. N. Hurty has a new fable with a health moral: "Once upon a time at the fair at Louisville, Ky., there was a baby incubator show. The incubators were of the latest scientific construction and the babies came from that whirl of humanity called Chicago. Three of the sickly orphans died, and then followed a great public outcry and officials made an inquiry into the cause of the deaths. In Indiana in that same week 131 babies died of cholera infantum and other diarrhoeal diseases, every case being caused by poison ignorantly or negligently administered. No investigations were made. Of course not, for we are continually told that 'God in his infinite wisdom has taken away.' And again, would not the investigations probably discover conditions which, if remedied, might hurt business? The question suggested is: When will we investigate infantile deaths caused by such unnecessary poisoning as cholera infantum?"

WOULD RELIEVE TRUSTEE BY LAW

Effort Will be Made in Next General Assembly to Legalize Expenditures of Officials.

CHARGED BACK BY FIELD MEN

Every Case Has Proved That Money Paid Out is Necessary But Not Legal.

From trustees and citizens who have called at the office of the State board of accounts recently in connection with reports concerning the affairs of township trustees, it is understood that a vigorous effort is to be made in the next session of the general assembly to have enacted a law legalizing certain expenditures made by trustees that have been charged back by field examiners employed by the State board, says the Indianapolis News. The examiners, acting under instructions from the board, are adhering to the letter of the law concerning township expenditures and are charging the trustees with sums of varying size spent in forwarding the work of the townships, the expenditures being, in the opinion of the trustees and their advisory boards, necessary, although not legal.

Attention in this respect is turned chiefly to the townships that contain county seats. Under the law, the trustee of any township containing less than twenty-five thousand population, according to the last preceding United States census, may receive only \$2 a day for his services, or an aggregate of \$626 a year. In a township containing 25,000 inhabitants or more, the board of county commissioners may allow the trustee \$1,500 a year salary.

A large number of townships containing county seats or other cities have, according to the 1900 census, under which the examinations are made, more than 24,000 inhabitants, and the work of the trustees in such townships has been such that it could not be performed by the trustee without assistance. In some of the townships, the advisory board allowed the trustees more than \$2 a day allowed by law, often as high as \$1,500 a year. In some of these cases, the trustee paid for his clerical work out of his salary. In others, the advisory board allowed the trustee excess salary and also allowed him to pay, out of the township treasury, for what clerical help he had and for persons to assist him in taking the school enumeration and for overseeing the poor. In other cases, the trustee was allowed only the legal amount of salary and the advisory board allowed him to pay out of the township moneys the cost of additional help. In all these cases, the law was violated.

The examiners who have been following the law have been compelled to report the amounts thus allowed as charged against the trustees. The only exception was in the case of former Trustee C. E. Potter, of Wayne county, where they said that in their opinion the amount allowed Mr. Potter (\$1,500 a year) was not excessive. Wayne township has less than twenty-five thousand population and the trustee can not legally be allowed more than \$2 a day for his services.

It is proposed to introduce a bill in the legislature legalizing expenditures by former trustees where, in the opinion of the State board, the expenditures have been made to further the good of the township, and where they have been made without any indications of intentional, questionable evasion of the law. The same bill, or another, will seek to provide sufficient payment for trustees in such townships to enable them to carry on the work as, in the opinion of the State board, it should be done.

AMUSEMENTS

"Rosalind At Redgate," which comes to the Auditorium in Chambersville Monday, Sept. 26, is a dramatization of Meredith Nicholson's latest novel of the same title, and is described as a "near neighbor" to "The House of a Thousand Candles," with the scene laid in the same delightful spot, and with the adventurous Larry Donovan in the role of the hero. "Rosalind At Redgate" is easily proving the best romantic play in years. "Seven Days," a comedy, will be the attraction Saturday night.

Clyde Fitch's posthumous drama, "The City," will be seen at the Shubert Murat theater, Indianapolis, on next Monday evening, when the Messrs. Shubert send there the original company headed by Tully Marshall, after its long engagement of a year's duration at the Lyric theater, New York. In "The City" Mr. Fitch has written the strongest play of his career and he was the author of fifty. He has endeavored to show that the best in one is brought only in cities where the conflict between men is greatest: that one's success in a city is a case of the survival of the fittest.

Warns Against Scarlet Fever

The current bulletin of the State Board of Health contains an article by Dr. J. N. Hurty calling on patrons, officials and teachers of the public schools to begin early their precautions against scarlet fever. Last year during the fall and winter months scarlet fever interfered seriously with the schools.

According to the bulletin, proper precautions will prevent the spread of the disease in any community. The disease is caused, it is set out, by a specific poison, which may be transmitted by an infected person by personal contact, or by means of clothing, rags, dishes or other articles that may have been touched or handled by the sick person. After evident recovery from the disease, the patient may transmit the poison for as long as eighty days, while infected clothing may carry the poison for years and then infect any one wearing or handling it, the bulletin sets out.

"During the existence of scarlet fever in the school or in a community," says the bulletin, "all cases of 'sore throat' and of fever are to be looked upon with suspicion and treated the same as scarlet fever until the true nature of the cases is established. If a child who has not previously had an attack of scarlet fever should be exposed to a case, it should be carefully watched during the following two weeks. Upon the first appearance of symptoms, such as lassitude, headache, frequent pulse, flushed face, hot, dry skin, coated tongue, with thirst, and loss of appetite, the child should be separated immediately from other members of the household, or if a school pupil should be immediately sent home until a physician has seen it and determined whether it is scarlet fever. All persons known to be sick with this disease, even the mildest cases, should be promptly and thoroughly isolated from the public.

"All school boards and boards of health in counties, cities and towns are strongly urged to be on the alert and watchful concerning the first suspicious cases that may occur in their respective counties and adopt and enforce such regulations as may be necessary to prevent it.

HEED THE WARNING.

Many Rushville People Have Done So

When the kidneys are sick they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Sick kidneys expel a dark, ill-smelling urine, full of "brick-dust" sediment and painful in passage. Sluggish kidneys cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and frequently rheumatic twinges.

Doan's Kidney Pills are for the kidneys only; they cure sick kidneys and rid the blood of uric poison. If you suffer from any of the above symptoms you can use no better remedy.

Rushville people recommend Doan's Kidney Pills.

O. P. Wellman, 122 West Third street, Rushville, Ind., says: "I was afflicted with a steady dull ache through my kidneys and my back was so lame that I could not lift. When I read that Doan's Kidney Pills were a specific for backache and other symptoms of kidney trouble, I got a box at F. B. Johnson & Co., drug store. The first few doses relieved me and it was not long before the pain in my back had entirely disappeared. I can strongly recommend Doan's Kidney Pills to all kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

MODERN HAIR DRESSING

Has played havoc with the tresses of the fair sex, and druggists everywhere comment on the fact that they are selling large quantities of sage for making the old-fashioned "sage tea," such as was used by our grandmothers for promoting the growth of their hair and restoring its natural color. The demand for this well-known herb for this purpose has been so great that one manufacturer has taken advantage of the fact, and has placed on the market an ideal "sage tea," containing sulphur, a valuable remedy for dandruff and scalp rashes and irritations. This preparation, which is called Wyeth's Sage and Sulphur, is sold by all leading druggists for 50 cents and \$1 a bottle, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by Hargrove & Mullin.

THE SCOTTISH RITE IS HAVING TROUBLE

Cause of Grand Commander's Resignation a Secret.

Detroit, Sept. 23.—For some reason which is guarded by absolute secrecy, General Samuel Crocker Lawrence, most puissant grand commander of the Ancient Accepted Scottish Rite for the northern Masonic jurisdiction of the United States, has resigned his office. The session at which the resignation was handed in was the last of the 98th annual meeting of the supreme council sovereign grand inspectors general. The grand commander is the head of the highest degree in Masonry.

The session of the supreme council had been long, and it was evident even before the resignation of the grand commander was announced, that harmony was not prevalent. There was no intimation when the council first met, however, that trouble was coming, so it is thought that whatever the trouble was it came up during this meeting. Puissant Lieutenant Commander Barton Stith of Toledo succeeds to the office left vacant by General Lawrence's resignation.

DECLINES TO TALK

Archbishop Ireland Thinks Too Much Has Already Been Said.

Omaha, Sept. 23.—Archbishop Ireland, who arrived in this city from St. Paul with Cardinal Vannutelli and his party, declined absolutely to make any comment upon the letters which Mrs. Bellamy Storer furnished the Springfield Republican. The archbishop, when shown the report containing the latest letters made public by Mrs. Storer, said:

"Please say the archbishop says he has nothing to give out on the matter. Say this and nothing more."

He intimated, however, that too much has already been said, and he does not want to be implicated in any controversy which might arise.

Cardinal Vannutelli was asked his opinion of Roosevelt. He made a quick gesture and said: "Colonel Roosevelt? Colonel Roosevelt? Ah, yes. Your ex-president. I do not know Mr. Roosevelt. I never met him in my life. In fact, I do not think I ever heard of him except a very few times. I scarcely knew who he was until I came to this country two weeks ago."

Considers Incident Closed.

Oyster Bay, Sept. 23.—Mr. Roosevelt was not greatly disturbed by the letters that Mrs. Bellamy Storer published. He thinks the affair has been cleared up so far as he is concerned. "I have no desire to enter into further controversy with Mrs. Storer," he said.

Hold-Up Men's Rich Haul.

Chicago, Sept. 23.—Search is being made for the two hold-up men who are said to have in their possession \$10,000 in cash and a large diamond stud valued at \$500, of which Harry W. Chatzner and his brother Max, wholesale tobacco merchants of Pittsburg, say they were robbed on the street.

THE PRESIDENT A PEACEMAKER

Ohio Republicans Calmed By His Presence.

DICK AND BURTON APPEASED

Both Senators Had Been Lukewarm Toward the Harding Candidacy on Account of the Circumstances Attending Recent State Convention, but It Is Now Announced That They Will Take Part in the Campaign.

Cincinnati, Sept. 23.—President Taft has made a little progress in clearing factional differences that have split the Republican party in Ohio since the holding of the state nominating convention. The president talked with Senator Burton and with L. C. Laylin, chairman of the Republican state committee, and after the meeting it was announced that both Senator Burton and Senator Dick had been invited to speak in support of Warren G. Harding, the Republican nominee, in the campaign.

There has been a general mix-up among Republican leaders in Ohio since the state convention, but it was feared that Senators Burton and Dick might cause the most trouble. Senator Dick was not invited to speak at the opening of the campaign, but attended the meeting and was called on by his supporters. The Republican nominee for governor had just finished a speech in which he announced himself as a moderate progressive favoring a tariff commission. Dick took the platform and made a red-hot, old-time stand-pat speech. Since then there had been doubt if Dick would be invited to participate in the campaign.

Senator Burton has his ax out for George B. Cox, the boss of Hamilton county. Burton is hot at Cox because Cox accused him of duplicity at the convention, and said that he was a "pin-head and a rusty one at that." Burton promised to go after Cox on the platform because of this "pin-head" characterization. At the meeting with Mr. Taft it became known that Burton would not take up the cudgels with Cox, at least until after election. The president promised the Ohio people that he would have several men of national prominence sent into the state for the campaign.

LONG SEARCH ENDED

Mother Trained Kidnapped Daughter For 15,000 Miles.

Evansville, Ind., Sept. 23.—Miss Dottie Barrows, aged fifteen, who it is alleged was kidnapped at Houston, Tex., Aug. 17, 1909, by Dr. Gordon Martin, an itinerant dentist, was found here yesterday by her mother, Mrs. Eloise Barrows, after a chase of 15,000 miles over the United States and Mexico. The mother followed her daughter and the dentist into many states and Mexico and back to this country, and spent over \$5,000 in the search. She finally located her daughter in this city, and broke into her room at the Wellington hotel while the girl was asleep. The meeting was dramatic. The girl said she went to Dr. Martin's office in Houston to have a tooth pulled, and that he drugged her. It is said that Martin has fled into Canada.

KNEW BLOW WOULD FALL

Defaulting Bookkeeper Had Made Up His Mind to Accept Arrest.

Indianapolis, Sept. 23.—Carlos Jordan was arrested and confessed robbing the Merchants Heat and Light company of from \$5,000 to \$7,000 while employed as its bookkeeper. Jordan left the employ of the company last July and was in Monmouth, Ill., until Wednesday, when he consented to come to Indianapolis in the company of an agent of a bonding company, his bondsmen for \$5,000. On the way a stop was made in Chicago and Jordan was permitted to go about unguarded, he made no effort to escape. He said: "I knew the blow would fall some day, and I made up my mind that I would take the consequences, whatever they might be."

Police Have Absolutely No Clue.

Muncie, Ind., Sept. 23.—Norman E. Black, sixty-two years old, prominent real estate man and vice president of the People's Trust company, was shot while out driving in the southern part of the city shortly after 7 o'clock last night. He died at the hospital at 10 o'clock. The killing is the most mysterious that has occurred in the city for years, and the police have no clue.

Took His Last Ride.

Bloomington, Ind., Sept. 23.—James Raines, aged twenty-three, living near Louisville, was killed while riding on the blind baggage of a Monon passenger train. He was found in a sitting position with the top of his head crushed. The fatal accident occurred on a curve north of the city. Relatives have claimed the body.

Didn't Know It Was Loaded.

Sullivan, Ind., Sept. 23.—While examining a revolver that he didn't know was loaded, Ernest Purcell accidentally discharged the revolver and the bullet entered his chest. It was removed and it is believed he will recover.

MIGHT "EMBARRASS" THEIR CAMPAIGNS

Lorimer Lawyer's Reason For Asking a Continuance.

Chicago, Sept. 23.—United States senators, investigating the charges of bribery in connection with the election of Senator Lorimer, after a short session adjourned to consider a motion by Attorney Haney, in behalf of the accused man, for a continuance. The committee ruled that the motion of the attorney representing Mr. Lorimer and the grounds alleged in support of it must be filed in writing. Objections to a continuance on the part of Clifford B. Hines of the Legislative Voters' League, it was ruled also, must be in writing and be presented at the same time, when the course of action of the committee will be outlined.

Two reasons were advanced as enough for a continuance. One of them, Attorney Haney said, was that the evidence brought in might be used in the prosecution of pending criminal cases against Lee O'Neil Browne, State Senator John Broderick and other alleged Lorimer agents, and the second that legislators who voted for Lorimer and who have been renominated, might be "embarrassed" in their fight for re-election if called on to testify.

HIS TRIUMPH

Orville Wright Cheered by Evidences of Home Folks' Regard.

Dayton, O., Sept. 23.—With 150,000 persons viewing the spectacle and with cannons roaring and steam whistles resounding about him in cloudland, Orville Wright late yesterday afternoon made the first flight of the aeroplane in his home city. He soared nearly three-quarters of a mile high and made a journey of twenty-five miles over and around the city in thirty-three minutes. When directly above the Wright homestead, where Bishop Wright, the father, and other members of the family were assembled, the aviator dipped his aeroplane in salute.

The Wright brothers had promised that they would make a flight in the city this fall, and when the industrial festival was planned, yesterday was designated as aviation day. The great audience of home people was supplemented by 50,000 visitors from every part of the state. The air was warm and the sky cloudless.

HERE IS A REMEDY THAT WILL CURE ECZEMA

"WE PROVE IT"

Why waste time and money experimenting with greasy salves and lotions, trying to drive the eczema germ from underneath the skin when the F. E. Wolcott Drug Store guarantees ZEMO, a clean liquid preparation for external use to rid the skin of the germ life that causes the trouble? One application will relieve the itching and often times one bottle is sufficient to cure a minor case of eczema.

In over 200 towns and cities in America, the leading druggist has the agency for ZEMO and he will tell you of the marvelous cures made by this clean, simple treatment. ZEMO is recognized as the cleanest and most popular treatment for eczema, pimples, dandruff and all other forms of skin or scalp affections whether on infant or grown person. Will you try a bottle on our recommendation? F. E. Wolcott's Drug Store.

INCREASE WEIGHT QUICKLY

Simple Way for the Thin and Pale to be Plump and Rosy.

Samose can hardly be termed a medicine, it is in reality a flesh forming food. Taken before or after meals, it mingles with the food you eat, enables it to assimilate and readily digest, so as to make rich blood and pleasing plumpness.

After Samose has been used a week or ten days a noticeable gain in weight is seen. The sallow complexion will become rosy, the sunken cheeks will have a ruddy glow, the eyes will be bright, the breath sweet and the step elastic.

Thos. W. Lytle's customers have told him of the remarkable results following the use of Samose, the great flesh forming food and they are so thoroughly convinced of its reliability that they are selling it under their personal guarantee to refund the money if it does not do all that is claimed for it. Sent postpaid on receipt of price, 50 cents.

STATE MAKING CLOSE INQUIRY

Responsibility for Kingsland
Wreck to Be Located.

RUNNING ORDERS ARE MISSING

Copies of the Interurban Train Dispatcher's Orders, Carried by Motorman and Conductor of the Special Car Have Not Yet Been Found—State Railway Commission Will Carry Inquiry to Highest Officers.

Indianapolis, Sept. 23.—Acting under orders from Governor Marshall, Alexander Shane, chief inspector of the Indiana state railway commission, has put the officials of the Fort Wayne & Wabash Valley Traction company through a thorough examination in an effort to fix the responsibility for Wednesday's wreck at Kingsland. While the traction officials are placing the blame directly upon the shoulders of Motorman Corkwell and Conductor Wilson of the special car, the blame cannot be definitely fixed until the copies of the interurban train dispatcher's orders, carried by Motorman Corkwell, who is dying in the hospital, are found. Corkwell and the conductor both carried the train orders in their pockets, but so far Shane and General Manager C. D. Emmons of the traction company have failed to find these orders, although they have made an exhaustive search for them.

General Manager Emmons told Inspector Shane the order issued to the conductor and motorman was exceedingly simple and merely ordered the crew of the special to run to Bluffton as a special train. Chairman Wood of the commission said that the investigation will not stop short of the night officer of the company.

FURTHER DETAILS

Story of the Only Passenger That Escaped Without a Bruise.

Fort Wayne, Ind., Sept. 23.—The death list as a result of the traction car wreck at Kingsland Wednesday was brought up to forty with the death of Frederick Jones of Warren, Ind. He is a son of President L. C. Jones of the Warren bank. Among the victims was Miss Pearl Saylor, daughter of Mrs. Clara Saylor of Bluffton and a sister of J. B. Saylor, the Watseka (Ill.) banker who was shot and killed by Dr. W. R. Miller a year or so ago.

Of the injured, F. A. Parkhurst, a Bluffton baker, has a broken back and is paralyzed from the neck down. Parkhurst says he was standing on the rear of the local car, as he was unable to get inside because of the crowded aisle. He realized that there would be a wreck just a few seconds before the smash, and he tried to get off the platform. It was impossible, however, and he says he was thrown against the roof of the car and discovered himself later with several persons piled on top of him. His doctors believe he cannot live.

Another whose life is in doubt is Miss Margaret Tribolet, daughter of J. W. Tribolet of Bluffton, as she has a fracture at the base of the skull. J. R. Boyd of Marion, Ind., doubtless was the only passenger on the local car who escaped without a bruise. Mr. Boyd was the last passenger to get aboard the car at Bluffton, where a large number of people on their way to the Fort Wayne fair had taken passage. The passengers were packed tightly in the rear of the car, and it was some little time after the car started before Mr. Boyd got above the steps on the rear platform.

"After we had passed Kingsland and were rounding a curve," said he, "I swung out over the steps and got a long view ahead. Probably a distance of 200 yards from us was the limited, bearing down at terrific speed. We were then going about fifteen miles an hour. I thought there would be a switch track into which we would run, but could see none, and then it appeared to me that the motorman of the local car saw the approaching collision and lost his head. Our car suddenly gave a lunge forward. Our speed increased to fully twenty-five miles an hour at once. The limited, bearing down on us at a rate of forty miles an hour, loomed up not 100 feet away. I saw what was coming and dropped off. It saved my life, undoubtedly."

GOVERNOR W. E. CLARK.

Alaska's Popular Executive Was Formerly a Newspaper Man.

THE OPTIMISTIC T. R. SAYS HE HAS WON OUT

Declares "Progressives" Will Control Saratoga Convention.

Oyster Bay, N. Y., Sept. 23.—It is the candid opinion of Mr. Roosevelt that the progressives have practically won the fight for control of the Saratoga convention. He says that he thinks he is reasonably safe in saying that they will have a majority of at least 100. This means that Roosevelt will be temporary chairman of the convention, for he has said that if his friends wish it he will make the fight. It means that he considers the old guard licked.

The expression of prophecy on the part of the colonel followed a political conference of several leaders who came to Sagamore Hill. They went over the whole situation from beginning to end and were unanimously agreed that what Roosevelt said was right. The reports of upstate victories for the progressives within the past few days have been particularly pleasing to the colonel. He is especially gratified that the old guard is being repudiated in a good many of its own strongholds. He said that he knows what the platform will be only in a very general way. It has not been outlined, even tentatively, yet. No state has been marked.

Tried to Wreck Journalists' Train.

Torreyon, Mex., Sept. 23.—An attempt was made to wreck the special train bearing forty American and Canadian journalists at the station of Guadalupe, South Zacatecas, on their way to the City of Mexico. Nearing a switch, the engineer discovered a pile of rocks on the track, and upon further investigation it was found that the switch had been thrown open.

Run Down by Trolley Car.

Waterbury, Conn., Sept. 23.—Running to catch a trolley car in Cheshire, the Rev. Cyrus Pickett, aged seventy-three, missed his calculation, and before the motorman could stop the car, had struck him, throwing him twenty-six feet. The body was terribly bruised and he died very soon.

TERSE TELEGRAMS

The National Association of Live-stock Exchanges is in session at East St. Louis.

Several hundred telegraph operators employed by the Monon railroad have been granted an increase in wages of 5 per cent.

Congressman Ollie James of Kentucky has announced himself a candidate for United States senator to succeed Thomas H. Paynter.

The sovereign grand lodge, Independent Order of Odd Fellows, in session at Atlanta, selected Indianapolis as the place of meeting next year.

Demands for increased wages for 75,000 employees of western railroads will be presented for the consideration of employers within two weeks.

The population of Galveston, Tex., is 36,981, a decrease of 2.1 per cent since 1900. San Antonio, Tex., is 96,614, an increase of 51.2 per cent.

Henry Clay of San Diego is under sentence by the federal court at Los Angeles to four months in jail for having set fire to part of a national forest reserve.

After shooting and seriously wounding Mrs. Fred Smer in a roadhouse near Cleveland, R. W. Yates, a Detroit capitalist, hanged himself in the Cuyahoga county jail.

While trying to separate two Mexicans who were fighting, S. P. Hughes, a prominent American contractor and mine operator, was stabbed at Durango, Mex., and killed.

The naval collier Marcellus, which was sunk after a collision off Cape Hatteras on Aug. 9 last, has been stricken from the naval list. No attempt was made to raise her.

NO PENSIONS OF A DOLLAR A DAY

Grand Army Committee Says Plan Would Cost too Much.

MADE AN ADVERSE REPORT

On the Ground That the Dollar-a-Day Pension Proposal Would Be Too Expensive to the Government, Pensions Committee of the G. A. R. Condemns Plan, but Makes Recommendation to Increase Pensions of Widows.

Atlantic City, N. J., Sept. 23.—John E. Gilman of Boston was elected commander-in-chief of the Grand Army of the Republic for the coming year. John McElroy of Washington, D. C., was the only other candidate, and he withdrew his name before the balloting began. Charles Burton of New Jersey was elected senior vice commander-in-chief, and William James of Jacksonville, Fla., was chosen junior vice commander-in-chief.

Colonel Gilman was a member of the fighting Twelfth Massachusetts Infantry, enlisting at a tender age after he had run away from home. The colonel of his regiment was Fletcher Webster, son of Daniel Webster. The bloodiest engagement of his enlistment was at Antietam, where 80 per cent of the men were either killed outright or mortally wounded. He was at the front most of the many days of fighting at Gettysburg, and only laid down his gun when one of his arms was blown off by a rebel shell.

The pensions committee made a report condemning the plan that congress grant each Union veteran of the civil war a pension of at least \$1 a day for life. The committee made the adverse report on the ground that such a pension list would be too expensive to the government. The report recommends that the widows of veterans be given an increased pension, and also advocates that the pensions of veterans above the age of seventy years be increased.

Rochester, N. Y., will in all probability be the next encampment site of the Grand Army. The veterans voted to go there if suitable railroad rates can be had. Los Angeles, Cal., put up a good fight for the 1911 meet.

STATE CONVENTION

Republicans of Illinois Gather to Name Ticket Today.

Springfield, Ill., Sept. 23.—Governor Deneen was temporary chairman of the Republican state convention which met here at noon today, and may preside throughout the proceedings. It is more distinctly a Deneen convention than any which has been held since he first was elected governor six years ago, and the executive's wishes are likely to prevail in the work that is done.

As temporary chairman the governor sounded the keynote of the Republican campaign. His address was a composite reflection of the views he expressed during the primary campaign. He occupied progressive ground, advising harmony among all Republicans on national matters, but was outspoken and plain in what he had to say of bipartisanship in the legislature. In the platform there was an endorsement of President Taft and of the commission idea of tariff revision and a carefully worded commendation of the Republican congressmen from this state.

Modern Life Would Be Too Hard on the Nerves If It Were Not For Want Advertising

The pace of life has become tense.

Worries, disappointments, up-sets at home and office, losses, discouragements seem to multiply as daily life becomes more complex.

The property owner, who MUST have a steady income from rents or lose his property, is "racked" by the untimely defection of a tenant. Some classified advertising quickly retrieves his loss—and quiets his nerves!

The salary-earner unexpectedly loses his position—and his peace-of-mind. The strain would shortly "break" something in his nervous system, if, once more, want advertising did not find the better job—and restore him his mental equilibrium.

In every phase of the city's life, every day, the Want Ads play the part of the peace-maker. They SERVE you and me at some crisis in our lives—and keep the modern pace and tension from proving too fast and tight for US.

Truly, the Want Ads ARE FOR SERVICE!

Humorist in New York Mail Says
That Broadway in Fall Looks
Like This City.

DERBY HAT IS SOLE CAUSE

With the going of Tom J. Geraghty into New York, Rushville assumed a position on the map, so far as New Yorkers are concerned. Few days are there that either Andersonville or Rushville is not made the butt of priced jokesmith on a paper of the eastern metropolis. Franklin Fyles, editor of the "Always in Fun" column of the New York Mail and one of the best magazine contributors to be found, receives the Andersonville Herald Daily after Tom J. Geraghty carefully peruses its columns. Occasionally Mr. Fyles inserts one about Rushville, for ye former editor's benefit which reads something like this:

And echo answers, "Why is a derby hat?" The worst of it is that the calendar ridden boobs of this town will dive into a black peanut shell of a derby, but keep right on wearing their old tan shoes, together with their faded ice cream summer suits. Broadway in the fall looks just like Rushville, Ind. Broadway dressers are teetotally punk.

The artistic stone church is considered one of the most beautiful church edifices in the city.

FAVORS A STRICT ADHERENCE TO LAW

State Superintendent Aley Believes
Matter of Paying Teachers For
Visiting Should be Watched.

GENERAL OVER THE STATE

Dr. Robert J. Aley, State superintendent of public instruction, favors a strict interpretation of the law and a rigid adherence to the letter of the law so far as it applies to paying teachers for attending county associations at Thanksgiving time, and the State association during the Christmas holidays and for a day or more spent in visiting other schools. Field examiners detailed from the State Board of Accounts found the practice had been general over the State to pay teachers for spending a day in other schools. In each case the examiners have held the officials accountable for the payments on the ground that the law does not provide for such payments. Dr. Aley advocates a strict adherence to the letter of the law on the ground that a violation of the smallest consequence may lead to grosser and more reckless indifference toward the law.

FEW CHANGES IN ELECTION LAWS

Are Now Getting Ready for the Congressional Campaign in Indiana
This Fall.

BOARD BEHIND IN ITS WORK

Only Difference is That Ballots Will
Not be Destroyed as Has
Always Been Case.

The State board of election commissioners has decided that no new codification of the election laws of the State will be necessary for distribution this fall to the election officers of the State, and thereby save \$300.

The only change that will be made in the former book of instructions will be the insertion of an act of the last legislature providing that ballots shall be preserved instead of destroyed by the election boards, as previously provided.

The board met with S. W. McGinnis and A. E. Butler, clerks of the board, and various details of procedure were discussed. It develops that for many years the clerk of the state printing board has been made the chief clerk of the election board and that printing board clerks had proceeded with the preparation for election far in advance of their actual appointment. Because the board would be Democratic this year and A. E. Butler, clerk of the printing board is a Republican, he had no assurance he would be the clerk, and so did not take this preliminary action. The result is that the board is behind in its work. The members believe, however, that by frequent meetings they will be able to get the work done on time.

The first thing to be done will be to get the clerks and auditors of the counties of the State to certify the number of voting precincts and the voters in each. The members of the board realize that it is of the greatest importance that these reports from the county officers be made promptly and will try to impress this on county officials.

RETURNS FROM EUROPE

The Rev. and Mrs. W. R. Jinnett Arrive From Stay Abroad.

The Rev. and Mrs. W. R. Jinnett of Manilla, have returned home after an extended visit in Europe. Their trip proved to be a very delightful one and was thoroughly enjoyed. The Rev. Mr. Jinnett has contributed letters based on his travels to the Daily Republican and they have been received with a tone of pleasure by the thousands of readers of this paper.

Burford Winship, son of John B. Winship, who entered Wabash College this fall as a Freshman, has joined the Phi Delta Theta fraternity.

Miss Louise Mauzy, daughter of Mr. and Mrs. Charles Mauzy, who entered Indiana University at Bloomington yesterday, has joined the Kappa Alpha Theta sorority.

The funeral services of Mrs. Oliver Brown were held at the home of Mr. and Mrs. Will Gregg in West First street this afternoon at two o'clock, conducted by the Rev. J. B. Meacham, the pastor of the First Presbyterian church. Burial was made in East Hill cemetery.

Arthur B. Cutter has filed suit against Charles F. Pritchard, to collect \$360 on account in the Henry circuit court. Cutter claims to have been employed by the defendant as a superintendent of building and that he was not paid in full for his services. The parties in the suit reside in Knightstown.

Greensburg News: Mr. and Mrs. John Tarplee of Greensburg were called to Milroy on account of the illness of their daughter, Mrs. Harry Richey, who is suffering with a complication of diseases. Mrs. Richey has undergone two operations with no relief and is now very low. Mr. and Mrs. Frank Rahe and Mrs. Ira Bird of this city were there also today.

JONES IS GIVEN PRAISE

Deserves Credit For Improvement of
Manners of Aleyfras.

Harrie Jones of Rushville, Ind. is deserving great credit for the improvement he has made in the manners of the fast pacing mare, Aleyfras, says the Western Horseman. Last year Aleyfras was absolutely worthless as a racing tool, although she had a tremendous amount of speed, but now she scores very well and her new record of 2:03 1/2 can be reduced considerably the first time she gets a chance. She was a good second to Ross K. in 2:01 1/2.

LORIMER OWNS SHARE IN COMPANY

Illinois Senator is Interested in Railroad Contracting Firm, Doing
Work at Knightstown.

GANG WORKS NIGHT AND DAY

Work on the double tracking on the Pennsylvania lines through Knightstown is progressing nicely and a large gang of men is kept busy on the grades day and night. The old depot there is being moved just across the street from its former location and the old station grounds have been done away with.

Beginning at the east end of Raysville there will be nine viaducts through that little town and Knightstown over the street crossings, and a big triple arch cement bridge spans Blue river on the east side of the town. The cut through Pritchard's

hill on the east is indeed a beautiful piece of engineering work. All of the sod taken off the right-of-way is saved and placed on the sides of the fills on the grade and grass through the cut is already a beautiful green.

The contracting firm is Lorimer & Gallager of Chicago, United States Senator Lorimer being one of the firm. They, in turn, sub-let the work and it is said that the contractor who put in the big cement bridge over Blue river, cleaned up \$40,000 on the job.

SICKNESS IN FAYETTE.

The Cornersville News reports that while there is nothing at all approaching an epidemic, more illness seems to prevail throughout Fayette county now than at any time previous since the beginning of the year. No particular kind of disease is specially noticeable though there are a good many cases of typhoid fever reported. The disease is not grouped or confined to any particular locality or neighborhood and consequently its causes are the more difficult to trace. There, too, have been more deaths of infants and other young children of late than for some time.
